

IT-GOVERNANCE IMPROVEMENT BRIEFING

BUSINESS OBJECTIVE

Effective IT Governance helps ensure that IT supports business goals, optimises business investment in IT and appropriately manages IT-related risks and opportunities.

Improving IT Governance is, we believe, one of the major management goals IT-departments will set themselves in the next few years. This briefing will give you an overview of the steps required to improve your IT-governance.

TOPICS

CMMi
ITIL
Process Improvement
Software engineering
Change management

RELATED SERVICES

CMMi Briefing
ITIL Briefing

CONTENT

We sketch the background of IT-Governance and the present trend towards IT Governance improvement. We describe the different areas and fields involved in IT Governance. Achieving the goal of better IT Governance will require translating this general goal into more concrete and operational goals. These in turn will lead to projects of process improvement and finally the implementation of Change Management.

During the briefing, the following topics will be discussed:

- CobIT (Control objectives for IT)
- Software engineering and CMMi®
- IT service management and ITIL
- IT portfolio management and Enterprise architecture
- Project management and Program management in the enterprise IT context (Prince 2, PMBoK)
- Agile software development

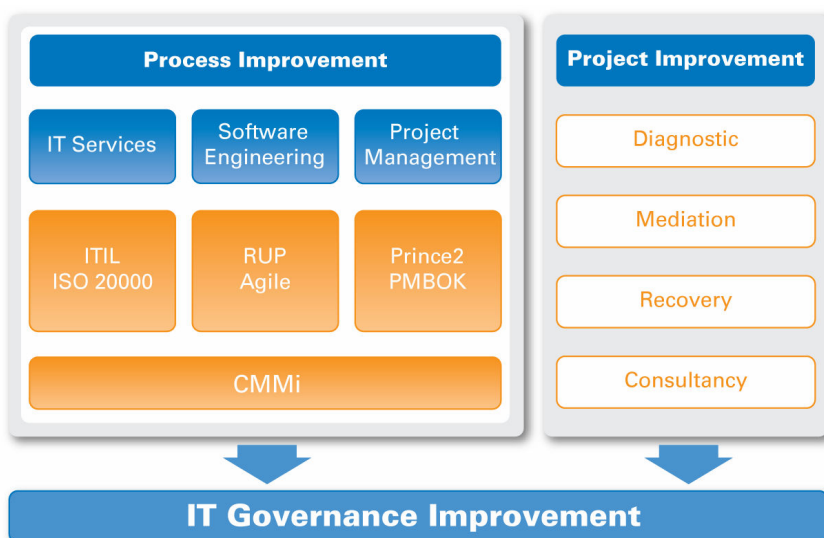

Finally, the briefing will present a Roadmap for implementing IT-Governance improvement.

DURATION

2 to 3 hours

COST

Per session: 600 €
