
PRINCE2® 2009 edition: immediate benefits for any organisation

Since its 2005 release, PRINCE2 has become a best-practice approach to Project Management and is one of the few de-facto standards, and as such, has been widely implemented by thousands of reputable organizations. In June of 2009 a new edition of PRINCE2 was released.

Many organisations already have a substantial investment in the 2005 edition and will be questioning the benefits of moving to 2009.

*Why should they be early implementers ?
Is there any significant improvement ?*

This Prince2 2009 edition awareness session aims to respond to such questions. The workshop provides a high-level overview on the new version, giving a basis to assess what it can do for you.

Objectives

The main goal of this workshop is to briefly explain PRINCE2 2009 edition in general and to show the key differences between the versions 2005 and 2009 in an objective manner.

The session takes 2 hours and the attendees will have the opportunity to discuss individually the topics with the ADJUGO speakers and consultants afterwards.

Benefits

Participants completing this workshop will be able to:

- Get the big picture on Project Management and PRINCE2 2009 edition in particular,
- Get insight in the new PRINCE2 features,
- Get insight in the key differences between the 2005 and 2009 editions,
- Provide a reflection on the implementation strategy,
- Provide a reflection on how Project Management will evolve in the future,
- Allow for time to discuss hot topics and questions managers might have when,
- thinking about Project Management and PRINCE2 implementation/customisation.

Audience

- Project Portfolio Managers, Program Managers and Senior Project Managers,
- Project Office/Program Office Executives and Staff,
- Strategy Planners, Change Managers, Architecture Managers,
- Executives and Managers involved with Project, Program and PMO Management,
